

# Gatwick International Airport: CPS

{chronocontact}CPS{/chronocontact}

## CPS &ndash; Gatwick Airport

Chauffeured Parking Service (CPS) at Gatwick Airport is a professional Meet and Greet service. Drive your car to the terminal where a chauffeur will meet you and take your car to a secure on-airport car park.

## Security and insurance at CPS

Your car will be parked at a secure on-airport car park that has been awarded a Safe Car Parks Award. Car parks that hold such awards meet stringent security standards including regular patrols and security lighting. The chauffeurs at CPS are fully insured to drive your car and your vehicle will be held subject to the car park's terms and conditions.

## Getting to CPS

CPS is a convenient Meet and Greet service so there are no complicated instructions to an airport car park. A chauffeur will be sent to meet you at your departure terminal at Gatwick airport.

## Parking Procedure at CPS

Your appointed chauffeur will meet you at your departure terminal and take your car to a secure long-term car park. After you've made your pre-paid booking you need to telephone CPS to confirm your specific requirements and arrangements.

## Transfers from CPS

Your car is collected at your departure terminal. On your return a chauffeur will meet you at your arrival terminal, according to a pre-arranged time and day. Being a Meet and Greet service there are no transfers to the airport or car park.
