

Gatwick International Airport: Parking Express South

{chronocontact}PESouth{/chronocontact}

Parking Express – Gatwick Airport

Parking Express have managed Gatwick Airport's long-stay car park on behalf of BAA since 1993. This on-airport car park has state of the art technology and excellent security. It is conveniently located for South Terminal departures with transfers taking approximately seven minutes.

Security and insurance at Parking Express

This car park holds a Secure Car Parks Award, is enclosed by security fencing and monitored by CCTV. The staff at Parking Express make frequent security patrols.

Getting to Parking Express

Leave the M23 at Junction 9 and follow the signs for Gatwick Airport when you reach the first roundabout. At the following roundabout follow the signs for the South Terminal. Then follow the signs to long term car park.

Parking procedure at Parking Express

Drive to any of the entrance barriers and press the green button to request a ticket. The system at Parking Express will then automatically read your vehicle's registration number and check that you're a registered pre-pay customer. When this is confirmed you'll be issued with a ticket with your booking reference number printed on it. You need to keep this ticket for the duration of your trip. You can then park your car and continue to the terminal. When departing, insert your ticket into the exit barrier machine and you can then exit the car park. If your booking reference number is not printed on your ticket or you've overstayed your pre-paid period, staff will need to manually process your ticket.

Transfers from Parking Express to Gatwick Airport

Transfers to Gatwick's South Terminal run at approximately 10 minute intervals and take about seven minutes. This courtesy service is available 24 hours a day, 365 days a year. Transfers from this car park only serve the South Terminal. Customers departing from the North Terminal may choose to park at Parking Express and use the airport's monorail to travel between terminals.
